Stay connected

To receive this Making Connections program regularly please call 1300 781 500, email info@counterpart.org.au or visit counterpart.org.au/stay-in-touch

Counterpart provides general information only. For further information, or to discuss your own situation, please consult your treating team.

Counterpart is a service of Women’s Health Victoria. Counterpart acknowledges the support of the Victorian Government.

Women’s Health Victoria acknowledges the Traditional Custodians of the lands and waters on which we work. We pay our respects to them, their culture and their Elders past, present and emerging.
Exercise and metastatic cancer: a practical approach

**Wednesday 12 February 10.00am–11.00am**

The benefits of exercise are most effective when it’s tailored to individuals. For people living with metastatic disease it can be hard to know where to start. Our presenter will speak about starting to exercise in a safe way, knowing your limits, getting good advice about what is appropriate for you to do, and, importantly, what you shouldn’t be doing.

Amy Dennett is a physiotherapist and Research Translation Fellow at Eastern Health. She completed her PhD in 2018 on physical activity and oncology rehabilitation. She works clinically at the oncology rehabilitation program at Eastern Health including with women living with metastatic cancer.

**How to join in**

**Online** — watch the webinar on your own device. Register before the event at counterpart.org.au/events/exercise

**Group screening** — watch the webinar along with other women.

- **Melbourne** — Counterpart Resource Centre, Level 5, 210 Lonsdale Street, Melbourne. Book via phone, email or website.

Bone metastases and breast cancer

**Wednesday 22 April 12.00pm–1.00pm**

Bone metastasis or ‘bone mets’ occur when cancer cells from the primary tumor relocate to the bone. Bones are the most common site of recurrence for breast cancer.

In this session our presenter, Medical Oncologist Dr Bianca Devitt, will outline common symptoms, how bone metastasis is diagnosed, what treatment options are currently available and new treatments on the horizon. There will be an opportunity to ask general questions.

Breast cancer is an area of special interest to Bianca and she is actively involved in clinical trials as a principal and a co-investigator. She has a public appointment at Eastern Health and works at both Box Hill and Maroondah Hospitals.

**How to join in**

**Online** — watch the webinar on your own device. Register before the event at counterpart.org.au/events/bone-metastases

**Group screening** — watch the webinar along with other women at one of the locations below. Book via phone, email or website.

- **Melbourne** — Counterpart Resource Centre, Level 5, 210 Lonsdale Street, Melbourne.
- **Ballarat** — Primary Health Offices, 101 Drummond Street, Baileys Mansion, Ballarat Central.

Arrive at 11.30am for registration and cup of tea before the webinar starts.

The event is organised in partnership with Ballarat Health Services and hosted by Leanne Storer, McGrath Breast Care Nurse.
